J. H. Paris, the general manager of the Salt Lake Mining & Improvement association, is in the city again from the company's mines in old Ashbrook district in Box Elder county, this state, and he informs The Herald that the outlook for this property is a bright one and that the enterprise is

"a sure winner."

During the past month the company has been engaged in the instaliation of additional power at its mill, and has put in a 50-horse power boiler, which works like a charm. The works were placed in working order last week and on Thursday the whistle was sounded again and ever since the Huntington mill has been kept in motion on a high grade class of ore, the grinding capacity of the plant being greatly in excess of the pan capacity, which is now handling about eight tons of ore daily, but in the near future additional pans and settlers will be added to the equipment of the mill and in time it is the intention to bring the capacity is the intention to bring the capacity of the plant up to 25 tons every 24 hours, when the company will be on a money making basis, as a high saving

Paris will return to the mine Mr. Paris will return to the mine within a few days and in the course of two or three weeks the first consignment of bullon will arrive, being the initial shipment after the completion of the alterations and improvements made in the workings of the mill.

In speaking of the condition of the mines of the company Mr. Paris stated that the showing was excellent fine bodies of high grade milling ore being exposed in the several workings of the property, while a steady improvement yas being noticed as work progressed.

Vas being noticed as work progressed.

Mr. Paris has had his family at the
mine for the rast few weeks and he
says they enjoyed the outing greatly. THE KING SOLOMON.

Very Promising Gold Proposition Being Worked Near Ogden.

Don Maguire, the well metallurgist and geologist, of Ogder who was in the city yesterday e route to Stockton and Ophir, where he will continue his collection of minerals for exhibition at the Omahn exposition informs The Heraid that he has charge of the work now in han! In one development of the King Soiomon group of mines in the main Wasatch range about 13 miles north of Ogden, concerning which nothing has been given out as yet for publication in the newspapers, notwithstanding the fact that the California people owning this promising gold property, have been hard at work in its exploration since August of last year.

"High up in the fastnesses of the grand old Wasatch." Mr. Maguire went on to say in his description of this route to Stockton and Ophir, where h

Yesterday was another big day in stock dealings on the floor of the mining exchange, and a \$10,000 market is getting to be quite frequent in mining circles in this city, which is an evidence that people are becoming more and more convinced that there is no investment more safe or remunerality.

circles in this city, which is an evidence that people are becoming more and more convinced that there is no investment more safe or remunerative than miring stocks.

But little business was transacted during the call until Geyser-Marion was reached, and this security went like hot cakes at an advance above the cutations of the previous call. Mercur was also a favorite, and chroniced transfers at \$8.02½, the stock closing strong at this quotation. Northern Light opened in good demand, but there were so many seliers in the pit, cager to let go at an advance, that a decline, was soon noted, sales being recorded at 42, down to 40 cents, which, however, was a decided gain over the figures of the previous day. Sacramento was steady, and registered still further advances in the bidding, although rosales were made, the stock being stiff at the close at 52 cents in the asking. It was recognized to the extent of a transfer of 100 shares at 55 cents.

Chloride Point was the only seller in the unlisted stocks, and there was considerable activity in this security, with the bears pounding it on the back harder than ever before, the result being that it touched \$5 cents in the salines, with offerings at \$1, buyer 60 days. The balance of this class of stocks at transfed but little attention, although some soarring was indulused in when Sunbeam was called, with buyer and seller unable to get together.

The transactions of the day were as follows:

SALES OF STOCKS.

900 Geyser-Marion at \$1.03½, 600 Geyser-Marion at \$1.03½, 600 Geyser-Marion at \$1.04½, cents.

# NEARING THE CLOSE

Testimony In the Ogden Water Case Will End Today.

PROCEEDINGS YESTERDAY

WERE NOT OF A VERY INTER-

In Full and Has a Receipt-Utah National Bank vs. John A. Groesbeck et al.-Thorald Schoning Arrested For Incorrigibility-Notes.

The taking of testimony in the Ogden vater case will close this afternoon and

water case will close this afternoon and
the arguments will follow. The proceedings yesterday were featureless
and devoid of interest so far as the
general public are concerned.
Yesterday morning Professor Fortier
was recalled for the defense. He said
the quantity of water used had increased since 1820. He didn't know
whether the increased demand came
from sprinkling, drinking, irrigating or
what. There was an increase in the
number of hydrants.

number of hydrants.

Al Leavitt said he paid Captain Spivey about \$175 for old from he purchased from the captain as agent of the Bear Lake company, at least he understood Spivey was selling it for that company.

that company. Charles H. Kurcher, formerly book-Charles H. Kurcher, formerly book-keeper for the Ogden waterworks company, testified that he had made an examination of the books of the company, but found no record of a sale of old iron to Leavitt or the foundry company. Witness had the water register books which he kept and knew them to be correct. The book showed that \$10,240 worth of water per year had been furnished through 150 hydrants. The city had not pald the Bear Lake and river company any-Bear Lake and river company any-thing on that account.

MANAGER ROWE.

W. H. Rowe, manager of the defendant company, testified that he had been connected with the waterworks company since 1894. The average pressure of the water on Washington avenue since 1894, was from 30 to 119 pounds, normal. The consumption of water has increased since 1894. No charge was made against Ogden City for the increase in its use of water. The company took from Ogden river four or five cubic feet of water per second, about one-fourth of that quantity was used by Ogden City. A reasonable rate per hydrant for use to Ogden City would be \$75 a year.

The company charged and collected water rates from the citizens of Ogden. Counsel for the defense introduced in evidence over the objection of the MANAGER ROWE.

in evidence over the objection of the plaintiff, the city ordinance authorizing the sale of the water system and the transfer of the same to John R. Bothweil.

Professor Fortier, recalled, testified that a hydrant, with attachments, cost about \$50. Witness had seen the hydrants in Ogden City used for other purposes than for extinguishing fires. The charge in Ogden City for the use for fire extinguishing purposes should

for fire extinguishing purposes should be about \$70 a year per hydrant.

W. H. Rowe, recalled by the defense, in reply to Mr. Rogers, identified a printed paper as the plan of reorganization of the original Bear Lake & River Waterworks & Irrigation company, which was admitted in

H. C. Gilbert testified that the old system was inadequate, inefficient and poor and unsatisfactory in regard to supply, quality and condition of the Witness said he ordered the old

nights, as a rule. The repairs were not so extensive but that they could be done during the day. The old pipes stood all the pressure the old system made. That pressure was not very

in the suit brought against himself and outers by the Knutsford company, to recover \$430, alieged to be due for entertainment furnished for the Jackson day celebration last year.

Mr. Thatcher denies that he is indebted to the plaintiff in the sum claimed, or in any sum, and alleges that the plaintiff and this defendant had a mutual accounting touching all the claims and demands of the plaintiff, including the several matters and things in this complaint, and that on said accounting this defendant paid the balance found to be due in full discharge, and received a written receipt, signed by the plaintiff.

Utah National vs. Groesbeck.

The Utah National bank has entered suit agninst John A. Groesbeck et al., suit against John A. Groesbeck et al., alleging that on Jan. 29, 1889, the plaintiff obtained a judgment for \$16,600 against John A. Groesbeck, and that an execution was issued on the judgment, and the same was returned wholly unsatisfied. It is then alleged that in 1890 John A. Groesbeck bought 50,000 shares of the Missoula Placer Mining company, paid for them with his own money, but, in order to hinder and prevent this piaintiff from obtaining satisfaction of the judgment, he

and prevent this plaintiff from obtaining satisfaction of the judgment, he
placed the stock in the name of his
wife, Ann D. Groesbeck.

Plaintiff then prays that the stock
be declared the property of John D.
Groesbeck, that it be applied on the
judgment held by it; that the defendant be restrained from disposing of it
in the meantime, and that if it has already been transferred to some other
person, that the plaintiff have judgment against Ann D. Groesbeck.

The stock in question is valued at The stock in question is v 25 cents a share, \$12,500 in all. stion is valued at
